

# The Next-Generation Campus Safety Solutions Have Arrived

## Campus Safety and Attendance Management

### What we can offer

Refine the process of recording student attendance

Enhance the security of student pick up/drop off

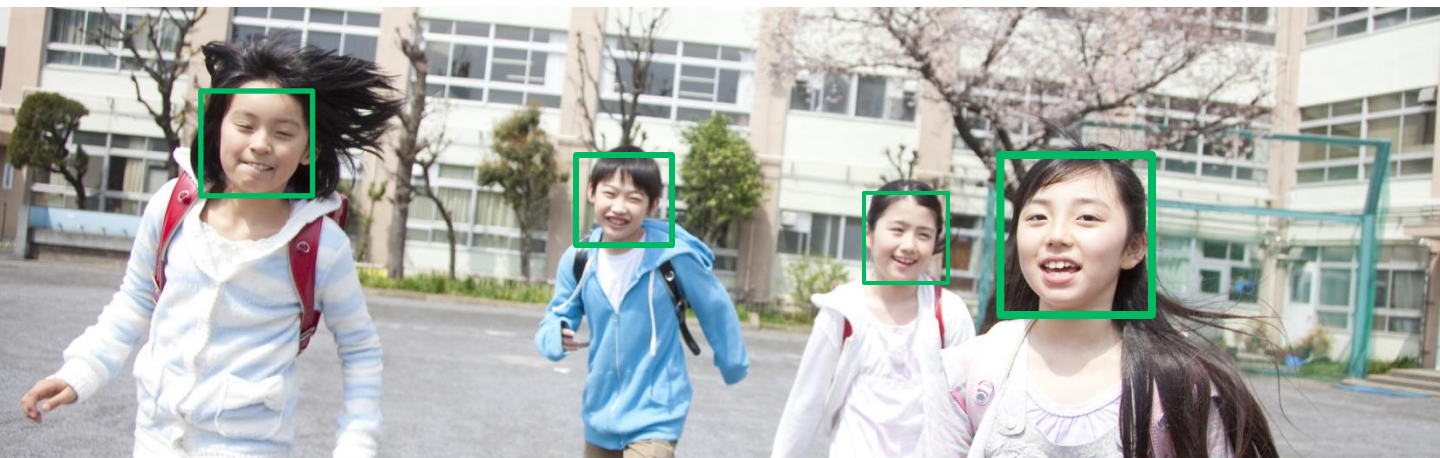

Ensure the school environment is safe and peaceful

Safeguard and upgrade campus security

## How Can We Support?

### 01 Facial Recognition Surveillance

Our video surveillance solution detects multiple faces in real-time by CCTV cameras. It gives detailed in and out records of students and visitors, and alerts for unwanted individuals. It is the perfect solution for crowded entrance during school rush hour.

Facial recognition video surveillance

Visitor and student access management in campus

Auto student attendance record

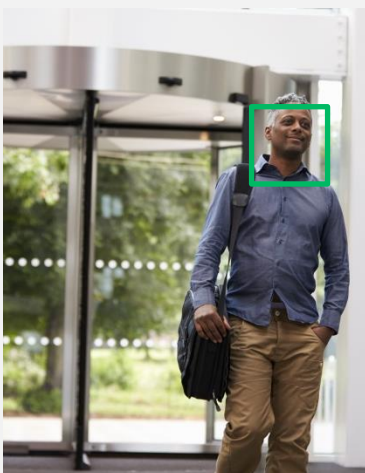

Identify blacklisted individuals and stranger

Identify multiple students simultaneously

Auto alert output (e.g. alert parents when students arrive and leave campus)

### System specification

- Automatic subject enrollment function
- Allows for multiple watch lists (blacklists/ whitelists/ students)
- Identifies faces, contactless, at a distance, on the move
- Recognition of up to 20 faces simultaneously
- Works properly on changes of facial expression, illumination, beard, glasses, scarfs and caps
- Alarms can be sent through emails or mobile apps

## In Business For People

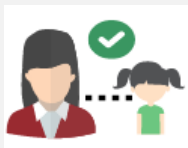

### 02

### School Pick up/Drop off Protection

Secure your students with Guardforce *School Pick up/Drop off Protection*, which ensures your students are being picked up by the rightly authorized individuals – the entire process is verified, using advanced biometrics technology, for reliability, accuracy and traceability.

Facial Recognition

Parents Matching

1 to 4 Relatives

RFID ID Card

Message Alert

Centralized Management

### (Facial Recognition + ID Card)

- Matching student and parents
- Centralized and detailed record
- Control access at the campus
